

Count on us for MORE!

OptiCount Vision-Based Seed Analyzers

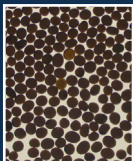

Every lot started with a count per pound for planning, was processed, and ended with a count per pound for packaging. ***But in the world of Precision Ag you can know so much more!*** You need count per pound data, why not get information on physical properties such as size, shape, color? With the ***Opti-“Count + So Much More” Seed Analyzer***, count on us for more information!
