## Interstate Graphics Inc. Offers the Most Advanced Digital Printing Solutions and Capabilities in Northern Illinois with **THREE** State of the Art **VUTEk** Digital Printing Systems.

**VUTEk HS100 Pro** is a high-speed digital UV inkjet press that represents a true alternative to analog equipment. Innovative imaging technology delivers critical color accuracy and consistency.

**VUTEk GS3250LX** is a production-level LED UV-curing printer. It is an ideal flatbed and roll-to-roll printer for a greener printing solution. Producing less waste, uses less energy and has the ability to print on recycled and other materials without warping or head strikes.

**VUTEk GS2000 Pro-TF** produces custom thermoforming imaging with a new high-elongation, UV-curable ink developed specifically for deep draw thermoforming. Producing custom formed signs, packaging, P-O-P displays, vending panels and other thermoforming applications with outstanding elongation characteristics. Excellent adhesion and consistent post-draw opacity, that withstand heat forming and cutting/routing with no chipping or loss of adhesion.

**Interstate Graphics, Inc.** is an Illinois firm located in Machesney Park, Illinois with a manufacturing facility of over 25,000 square feet.

## Pre-Press Services/Design

Art Department available to you, which uses the latest in Mac and Windows Based software to help you develop or design any artwork or concept you and your customer require.

## Digital Printing

VUTEk HS100 Pro

126.5in Material Up to 2in Thick Flexible or Rigid Substrates 6 Color Plus 3 Layer White UV Ink Flat Bed & Roll-to-Roll  
126.5in Material Up to 2in Thick Flexible or Rigid Substrates 8 Color Plus White UV Ink Flat Bed & Roll-to-Roll  
80in Material Up to 2in Thick 8 Color plus White UV Ink Superior Elongation Characteristics for DeepDraw Thermoforming Flat Bed & Roll-to-Roll  
Inkjet  
Thermo Foil Printer  
High Speed Plotter

## Screen Printing

M&R Insignia  
M&R Conquest  
Sakurai Cylinder Press  
Svecia Printmaster SPM Digital  
6 Semi-Automatic Presses

6 Color UV Carousel Screen Printing Press - Image Area 40in x 61in  
5 Color UV Carousel Screen Printing Press - Image Area 38in x 50in  
Sheet Size 40.25in x 28.3125in  
Image Area 34.5in x 49in with Hypron A-LE 2+2 with 2 Lamp Curing System  
Image Areas that Go Up to 34in x 50in

Sakurai Cylinder Press

## Fabrication & Cutting

Esko Kongsberg i-XP  
MultiCam CNC  
Mimaki CG-160 FX  
Gerber CNC  
Thompson Die Cutter  
Imperia Die Cutter  
4 Line Heat Bending  
Siebold Guillotine Cutter

Cam/Cad Cutting Table  
Router 60in x 120in Cutting Area  
Cutting Plotter 62.9in Cutting Area with Optical Registration  
Router 54in x 54in Cutting Area  
38.75in x 55.5in  
35.5in x 55.5in  
48in  
58in

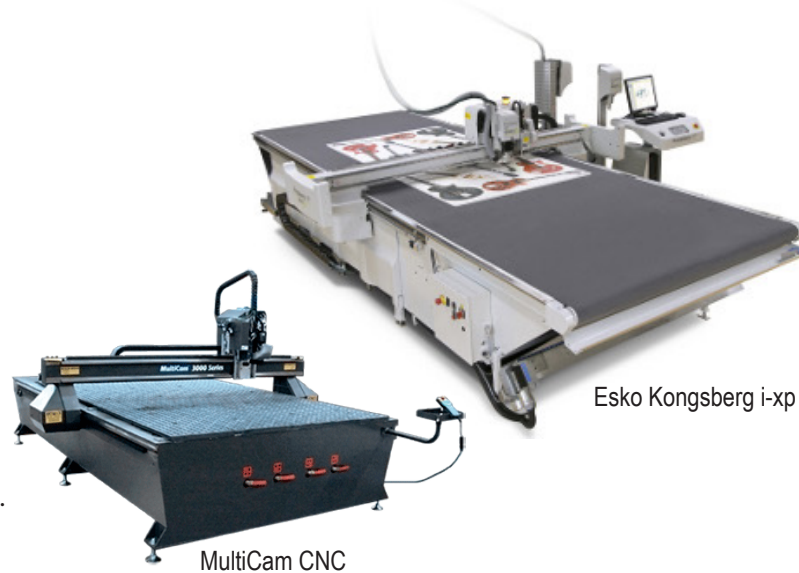

M&R Insignia

## Finishing

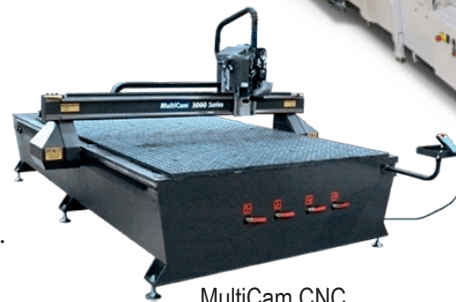

Laminator 40in  
Seal Laminator 60in  
Orca Laminator 60in  
Wensco Laminator 27in  
Back Slitter

## Fulfillment

Products in need of distribution to multiple addresses and specific packaging needs are all managed by our shipping department including custom boxes, crates, and assembly.

Esko Kongsberg i-xp

MultiCam CNC

We offer Screen Printing and Digital Printing on an extensive line of materials and the abilities to finish products with multiple fabrication processes and tools. Some substrates include; Polyethylene, Styrene, Vinyls, Polycarbonate, Coroplast (corrugated polypropylene or polyethylene), Pressure Sensitive Vinyl, Aluminum, Steel, Magnetic Sheeting, Cardboard, and other paper products. Some markets served are Equipment Manufacturers, Point of Purchase, Marketing Firms, or anyone needing the printing and fabrication diversity we provide.
