## HIGH-PERFORMANCE PRODUCTS

## EXCLUSIVE RETAIL ROUTE-TO-MARKET

## A NEW, AGILE WAY OF DOING BUSINESS WITH CORTEVA

## READY TO GO BUSHEL TO BUSHEL WITH ANYONE.

Brevant™ brand corn and soybean products have been vetted nearly 3 million times<sup>1</sup> against the competition. With the depth of our product portfolios and offering of industry-leading traits, technologies and seed treatments, we have a solution for every field.

## OUR FOCUS AND MISSION

When it came time to build a new seed brand, we didn't waste time on what we thought you wanted, we listened to what you needed. Our new agile way of doing business is driven by our Retail Development Teams that were designed with you in mind. And we're teaming up with local retailers like you to deliver high-performance seed you can believe in, and take to your customers with confidence.

# WHEN WE SAY HIGH-PERFORMANCE, WE MEAN IT.

## GRAIN CORN

Through Corteva Agriscience, Brevant seeds expands retail's access to the world's largest proprietary library of elite corn germplasm. Our corn hybrids average 7 bu./A more<sup>2</sup> than the competition. With more than 100 grain corn hybrids to choose from, farmers have access to Qrome®, PowerCore®, Optimum® AcreMax® and Enlist® corn traits that can be partnered with LumiGEN™ technology for maximum yield and plant protection.

## SOYBEANS

In addition to yield potential, our soybean varieties offer the latest trait technology solutions. Our Enlist E3® soybean varieties average 1 bu./A more<sup>3</sup> than the competition. The portfolio of Brevant brand soybean includes Enlist E3, LibertyLink® and Roundup Ready 2 Xtend® that can be partnered with LumiGEN™ technology.

## SILAGE CORN

Brevant seeds offers a complete line of high-performance silage corn, including Unified, BMR and TMF hybrids. Unified hybrids are only available through Brevant seeds and deliver a 7% increase<sup>4</sup> in feed efficiency compared with non-BMR hybrids. In addition, BMR-fed cows produce 5.5 pounds.<sup>5</sup> more milk than cows fed conventional corn silage.

**For more information, contact your local Retail Product Agronomist.**

<sup>1</sup> Brevant multi-year, on-farm pre-commercial head-to-head comparisons, 3rd party and on-farm trials. Based on more than 2,800,000 comparisons between 2017-2019.  
<sup>2</sup> Brevant multi-year, on-farm pre-commercial head-to-head comparisons and 3rd party trials. Based on more than 379,000 comparisons within 2 days of relative maturity.

<sup>3</sup> Brevant 2019 on-farm trials; 695 comparisons within 3 days of relative maturity.

<sup>4</sup> Remick, E. M., et al. 2016. A novel bm3 corn silage hybrid with floury kernel genetics improves lactational performance and feed efficiency in Holstein cows.

Qrome® products are approved for cultivation in the U.S. and Canada. They have also received approval in a number of importing countries, most recently China. For additional information about the status of regulatory authorizations, visit <http://www.biotradestatus.com/>. Agrisure® is a registered trademark of, and used under license from, a Syngenta Group Company. Agrisure® technology incorporated into these seeds is commercialized under a license from Syngenta Crop Protection AG. YieldGard®, the YieldGard Corn Borer design and Roundup Ready® are registered trademarks used under license from Monsanto Company. Liberty®, LibertyLink® and the Water Droplet Design are trademarks of BASF. PowerCore and SmartStax are registered trademarks of Monsanto Technology LLC.

The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Dow AgroSciences LLC and M.S. Technologies L.L.C. The Enlist weed control system is owned and developed by Dow AgroSciences LLC. Enlist Duo® and Enlist One® herbicides are not registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area. Enlist Duo and Enlist One herbicides are the only 2,4-D products authorized for use in Enlist crops. Always read and follow label directions. Consult Enlist herbicide labels for weed species controlled.

LibertyLink® is a registered trademark of BASF.

Roundup Ready 2 Xtend® is a registered trademark used under license from Monsanto Company.
